Instruction Manual

Model: **ProPrompter HDi PRO2 LCD**

Contents

Mobile teleprompter w/10.4" LCD for use with Mac/PC laptops. May also be used with the Apple iPad (1st, 2nd, & 3rd gen).*

* iPad is a registered trademark of Apple, Inc. iPad requires optional bracket.

What's included in the kit

Includes:

• ProPrompter HDi PRO2 mirror box w/studio quality 60/40 beamsplitter glass - includes mount for included camera bar and optional 15mm rail system.

• 10.4" LCD w/ mirror function - supports VGA/HDMI/DVI/composite input sources.   A 15ft VGA cable provided for connection to Mac/PC laptops. *Your laptop may require an optional VGA adapter.*

• ProPrompter Software for Mac/Win provided for prompting from your laptop. *Optionally, the ProPrompter App for iOS can be purchased for $9.99 from the Apple iTunes App Store if using an iPad as your video source. An iPad requires a dock to VGA adapter to connect to the LCD.*

• Black Duvatyne anti-reflection mask - helps knock off surface reflections from the LCD screen and beamsplitter glass.

• Black lens sock - blocks light from entering the mirror box from behind and around the camera lens.

• Pistol Grip - for truly mobile handheld operation - can also be mounted to tripod.

• Camera Bar - supports weight of camera and mirror box - has 1/4-20 hole for optional mounting directly to tripod if pistol grip is removed.

• Thumb Screw - 1/4-20 thread to attach camera to camera bar.

• Military-grade rolling travel case w/pull handle - waterproof and air tight w/auto pressure relief valve.

60/40 Mirror Box

Black lens sock

Camera not included

10.4" LCD w/mirror function

Thumb Screw

Pistol Grip w/tripod mount

Camera Bar w/tripod mount

Military-grade case

Configuration and Installation

Camera bar mount configuration

Installation Instructions:

1. Attach mirror box to camera bar with included thumb nut.

2. Attach camera to camera bar with included thumb screw.

3. Adjust vertical height of mirror box to center camera lens with mirror box opening. Secure in place with the lever handles.

4. Wrap black lens sock around camera lens so no light can bleed through the rear of the mirror box.

5. Attach the LCD to the mirror box bracket with the integrated thumbscrew.

6. Option - Install black Duvetyne anti-reflection mask around mirror box perimeter with included velcro strip.

Note: If the PRO2 will be primarily tripod mounted, remove the pistol grip and mount the camera bar directly to the tripod plate for best balance and stability.

Rail mount configuration - rail system not included

Installation Instructions:

1. Attach mirror box to optional rail system. Slide 15mm rails into rail holes and tighten securely using provided 4mm hex wrench.

2. Attach camera to rail system, see rail system instructions for mounting options.

3. Adjust vertical height of mirror box to center camera lens with mirror box opening. Secure in place with the lever handles.

4. Wrap black lens sock around camera lens so no light can bleed through the rear of the mirror box.

5. Attach the LCD to the mirror box bracket with the integrated thumbscrew.

6. Option - Install black Duvetyne anti-reflection mask around mirror box perimeter with included velcro strip.

15mm rail holes, spaced 60mm on center
