ProPrompter Wired Remote w/PRC

Part: PP-REMOTE
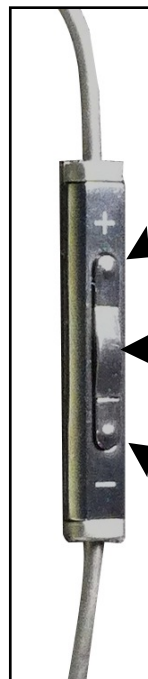

Wired Remote with 25ft cable for use with iPod touch, iPhone, and all iPads running iOS v4.x or later and ProPrompter App v1.7 or later.* Remote buttons support teleprompter script control commands including Speed Up, Slow Down, Pause, Resume, Cue Forward, and Cue Backward in a compact and familiar audio interface.

Includes:
- Apple compatible wired remote
- 25ft ProPrompter Remote Cable (PRC)

*ProPrompter App can be purchased through the Apple iTunes App Store.

Instructions: The ProPrompter Remote Cable included has a male plug on one side and a female jack on the other. Insert the male plug of the included wired remote into the female jack of the PRC, then insert the male plug of the PRC into the headphone jack of your iPhone, iPod touch, or iPad. Script scroll control of the ProPrompter App responds to remote button presses as detailed below.

(+) Speed Up - click repeatedly

(Pause/Resume) - click once

(Cue Forward) - click twice quickly

(Cue Backward) - click thrice quickly

(-) Slow Down - click repeatedly
